

## Amendment of Regulation (June 2016)

Due to recent recurring excesses and bad behavior on the part of some fishermen fishing guards sworn AAPPMA Lake Aiguebelette will make day and night checks on posts and the law is amended as follows:

(S) angler (s) is (are) required to be present (s) on the reserved position day and night. In case of control and absence (of) fisherman (s) (s) offender (s) is (are) sanctioned (s).

We invite all carp anglers to read these regulations. Henceforth, it will be applied to the letter.

### Warning

We recall that the locations of the stations are defined on a Prefectural Order (Here) and compliance with the regulations below and Prefectural conditions the renewal of these post by the state services

Proper compliance by fishermen of this regulation will involve the renewal or NO for night fishing in 2017.

Fishing for carp Night is performed only on the positions listed below. The practice of night fishing off sector is reprehensible a doubled fine of a civil transaction request and seizure of fishing equipment.

### Preamble

Since March 2015, the Aiguebelette lake has become a regional nature reserve. In fact, additional safeguards will be in place and we are counting on you to preserve the environment in which you operate during your stay so that the lake retains its beauty and uniqueness.

night Carpe Regulation

Night carp fishing on Lake Aiguebelette is regulated by this text, any offender will be write off its quality of adherent member of the Association Aiguebelette.

### General regulations

Night fishing is reserved exclusively for fishing carp.

Night fishing is possible from 1 January to 30 June and from 1 September to 31 December. During the summer, from July 1 to August 31, practice night fishing is prohibited.

NB: The opening and closing dates for night fishing positions 3 and 4 are subject to change according to the needs of the site in which they are located. We also point to the same items being located in camping, carp anglers enjoy the amenities of the place (running water, showers, vehicle monitoring, recharging the batteries ...) and it is obvious that fishermen must pay the price of a campsite from the owners of the premises.

Fishing is the edge on specific positions referenced by Prefectural with two fishermen maximum per post. Fishing is done with maximum 4 rods. Fishing inside reeds protected by piles is prohibited. Any

change on vegetation is prohibited. The use of animal bait is prohibited at night. Priming should be reasonable.

(S) angler (s) is (are) required to be present (s) on the reserved position day and night. In case of control and absence (of) fisherman (s) (s) offender (s) is (are) sanctioned (s).

Distance fishing should remain reasonable. The lines "sensitive" (long distances or cannes not fishing in the perpendicular of the bank) must be removed during the day (from 8 am to 19h) not to disrupt the fishing activities of other practitioners of the lake.

Night fishing implies the "No Kill full." All captured carp will be returned to the water in their place of capture. No travel will be tolerated. Handling carp involves holding a reception worthy of the name mattress. Attention compliance fish is paramount and the excess will be wrong.

Booking formality

The person wishing to practice will have to inform the office (Tel. 06.81.02.25.83, Email: [contact@aappma-aiguebelette.org](mailto:contact@aappma-aiguebelette.org)) have a permit to AIGUEBELETTE. For any use of a boat, it will fulfill the 'Boat' supplement.

The person wishing to practice must reserve its position to availability. Length of booking of a position is limited to non-renewable 6 consecutive nights. No reservations are taken into account 15 days before the coming of / fisherman (s).
